Preface

Purpose of This Manual

This manual explains how to view online manuals.

Online manuals can be viewed using Acrobat Reader. The description contained in this manual is about the typical operations for most commonly used functions, with a particular emphasis on PC operation.

Typographic Convention

Notational Conventions for Command Line and Example Program

- The command lines and example programs are represented in different typefaces to distinguish from the main body text in the manual. In addition, the user input and the screen output are represented in different fonts.
- The prompt indicating that it is ready for the user to input a command is represented by % if the log-in account is a general user; or # if it is a super user.
- The execution of command is represented by the return symbol (↵).
- The option that can be omitted is enclosed in [].
- The ... shown in a syntax indicates that the preceding item can be specified repeatedly, and the [] indicates that the item enclosed in it can be omitted.
- The ... shown in a program indicates that the description of source code is omitted.

Table C-1 Notational Conventions for Command Line and Example Program

Font or Symbol	Explanation	Example
<code>abcd123</code>	Represents the command name, the directory name, the file name, the screen output and the example program.	To check for the <code>.login</code> file, execute the <code>ls -a</code> command on the command line.
<code>abcd123</code>	Represents the character string the user inputs.	<code>system% su↵</code> <code>password:</code>
<i><code>abc123</code></i>	Represents the character string the user has to determine at the input.	<code>system% rm filename↵</code>
	The vertical bar character represents the OR separator. It means that only one item can be selected among multiple items separated by vertical bar characters.	<code>stnNum(int stn_num NONE)</code>
...	When this appears in a syntax, it means that the preceding item can be specified repeatedly. When this appears in an example program, it means that the description of source code is omitted.	<code>option(PINOPTION, ...)</code>
[]	When this appears in a syntax, it means that the item enclosed in [] can be omitted.	<code>Get_Tofl(int dfn_adr, ARRAY<int> ary_data[, int adr_cnt])</code>

Font or Symbol	Explanation	Example
%	Represents the C shell command prompt when the log-in account is a general user.	system% ls↵
#	Represents the Bourne shell command prompt when the log-in account is a super user.	# ls↵
↵	Represents the pressing of the [Return] key on the command line.	system% ls↵
[]	The [] on the command line represents the option that can be omitted.	system% ls [-a]↵

Notational Conventions for GUI Operation

The name of each element on the GUI (Graphical User Interface) screen is represented with it enclosed in []. In addition, the operation selecting a command from the menu is represented using an arrow symbol (→).

Table C-2 Notational Conventions for GUI Operation

Font or Symbol	Explanation	Example
[]	Represents the name of element on the GUI screen.	[File] menu [OK] button
[]→[]	Represents the command in a menu.	[File]→[Exit]

Notational Conventions for Key Operation

The key on the keyboard is represented with its name enclosed in []. In addition, the operation of pressing multiple keys at a time is represented using a plus symbol (+); the operation of pressing multiple keys sequentially is represented using a comma (,).

Table C-3 Notational Conventions for Key Operation

Font or Symbol	Explanation	Example
[]	Represents the key on the key-board.	[Return] key
[Ctrl]	Represents the [Control] key.	[Ctrl] key

Font or Symbol	Explanation	Example
+	When keys are joined to each other by a plus symbol (+), it represents the operation of pressing the second key while pressing the first key.	[Ctrl]+[d]
,	When keys are separated by commas (,), it represents the operation of pressing these keys sequentially.	[Ctrl]+[x], [y]

Notational Conventions for References

References are enclosed in double-quotation marks.

Table C-4 Notational Conventions for References

Font or Symbol	Explanation	Example
" "	Represents the title of the chapter or section that is to be referred.	For more information, refer to 2. "Start-up and Termination".
<i>Italic</i>	Represents the name of the documentation that is to be referred.	For more information, refer to <i>Installation Guide</i> .

1. Online Manuals

Using online manuals allows you to easily search for and read required information.

To view online manuals, use Acrobat Reader.

➔ For more information on how to use Acrobat Reader, refer to the online help of Acrobat Reader.

Tip

PDF

PDF refers to Portable Document Format, which is the file format used for electronic documents that has been developed by Adobe Systems, Inc.

Acrobat Reader

Acrobat Reader is the browser to view PDF files. Acrobat Reader allows you to display, search and print PDF documents with simple operations.

◆ Versions of Acrobat Reader

The versions of Acrobat Reader required for viewing online manuals are as follows:

Windows

Acrobat Reader5.1 or later

UNIX

Acrobat Reader4.05

2. Installing Online Manuals

This chapter describes the procedure for installing Acrobat Reader and the PDF files of online manuals on the workstation and PC.

Tip

The "CD-ROM" described in the following installing method refers to "CD-ROM" in which has online manual supplied for each product.

2. 1 Installing on a Workstation

To view online manuals on a workstation, install Acrobat Reader for UNIX on the workstation first. In addition, to display and print the Japanese versions of online manuals, install the Japanese font pack, too.

Tip

When Acrobat Reader 4.05 is already installed on the workstation, it is not necessary to install Acrobat Reader again.

After installing Acrobat Reader for UNIX, copy the PDF files of online manuals from the CD-ROM to the predetermined directory using the procedure described later.

2. 1. 1 Installing Acrobat Reader

Install Acrobat Reader as a super user.

The procedure for installing Acrobat Reader is as follows:

- 1) Create a working directory in /tmp. The directory name can be arbitrary.

```
# mkdir /tmp/acrobat.↓
```

- 2) Insert the CD-ROM into the CD-ROM drive.

```
# volcheck.↓
```

- 3) Extract the tar file for installing Acrobat Reader from the CD-ROM to the working directory.

```
# cd /tmp/acrobat.↓  
# tar -xvf /cdrom/cdrom0/acroread/unix/sunsparc_rs_405.tar.↓
```

4) Execute INSTALL.

```
# ./SSOLRS.install/INSTALL.↓
```

1) When the license agreement appears, read it.

2) If you agree to the terms of the license agreement it, enter **accept**.

```
To accept the terms and conditions of this agreement enter "accept".
To decline the terms and conditions of this agreement enter "decline".

Please type "accept" to accept the terms and conditions license agreement;
Type "decline" to exit. accept.↓
```

3) The following message appears when inputting **accept**, then press the [Return] key.

```
This installation requires 17MB of free disk space.

Enter installation directory for Acrobat 4.0 [/opt/Acrobat4] ↓
```

4) If the directory specified in 3) does not exist, the following message appears. In this case, press [Return] key.

```
Directory "/opt/Acrobat4" does not exist.
Do you want to create it now? [y] ↓
```

5) When the following message appears, the installation is completed.

```
Installing platform independent files ... Done

Installing platform dependent files ... Done

#
```

5) When the installation is completed, delete the working directory.

```
# cd.↓
# rm -r /tmp/acrobat.↓
```

Tip

The execution file "acroread" exists in /opt/Acrobat4/bin. Sets the search path for /opt/Acrobat4/bin.

2. 1. 2 Installing PDF Files

The procedure for installing the PDF files of online manuals from the CD-ROM to the workstation is as follows:

- 1) Insert the CD-ROM into the CD-ROM drive.
- 2) Move to the directory where the PDF file is to be installed.

When the operating system has been system-installed in the ADVANsite environment,

- 1) Log in to the workstation as the super user.
- 2) Move to the following directory.

```
# cd /export/home/atsys/all
```

When the operating system has been user-installed in the ADVANsite environment,

- 1) Log in to the account of the user who installed the product.
- 2) Move to the following directory.

```
# cd $AT_ASYSYSTEM/../../
```

Test systems Viewpoint and FutureSuite support

- 1) Make a new directory, then move to the directory.
- 3) Make a new directory man, to store online manual, then move to the directory.

```
# mkdir man
# cd man
```

Tip

If the directory man already exist, it is not necessary to create it.

- 4) If any online manuals of the other products or the online manual of an old edition have already installed, rename `toppage.pdf` (the file of overall top page) which exists in the `pdf_j` directory^{*1} into `toppage-org.pdf`.

**1 The `pdf_j` directory corresponds to the `pdf_e` directory in the English online manual.*

```
# mv pdf_j/toppage.pdf pdf_j/toppage-org.pdf
```

- 5) Copy the PDF files from the CD-ROM to the hard disk.

```
# tar -cvf - -C /cdrom/cdrom0 pdf_j | tar -xf -
```

**I pdf_j corresponds to pdf_e in the English online manual.*

- 6) If the time stamp of the newly-copied `toppage.pdf` is older than that of the `toppage-org.pdf` renamed in [4](#), remove the `toppage.pdf` and rename the `toppage-org.pdf` into `toppage.pdf` again.

```
# rm pdf_j/toppage.pdf␣
# mv pdf_j/toppage-org.pdf pdf_j/toppage.pdf␣
```

**I pdf_j corresponds to pdf_e in the English online manual.*

2. 2 Installing in a PC

To view online manuals on a PC, install Acrobat Reader for Windows on the PC first.

Tip

When Acrobat Reader 5.1 or after is already installed in the PC, it is not necessary to install Acrobat Reader again.

After installing Acrobat Reader for Windows, copy the PDF files of online manuals from the CD-ROM according to the procedure described later.

Important

The online manual for each product can be viewed directly from the CD-ROM. However, the overall top page will not appear correctly unless otherwise copied to the disc. We recommend you to use the online manuals after copying them to the disc.

2. 2. 1 Installing Acrobat Reader

Important

Before installing Acrobat Reader, disable the virus detection software. If the virus detection software is enabled, the Acrobat Reader installation may not be completed correctly.

The procedure for installing Acrobat Reader is as follows:

- 1) Insert the CD-ROM into the CD-ROM drive.
- 2) Execute the Acrobat Reader setup program.

Select the CD-ROM folder contained in **[My computer]**, and double-click the Acrobat Reader setup icon in the `acroread` folder.

To install the Japanese version of Acrobat Reader

Execute `ACROREAD/WIN/AcroReader51_JPN.exe`.

To install the English version of Acrobat Reader

Execute `ACROREAD/WIN/AcroReader51_ENU_full.exe`

- 3) Follow the directions from the installer to install Acrobat Reader.

2. 2. 2 Installing PDF Files

The procedure for installing the PDF files of online manuals on a PC is as follows:

 Important

To install the online manuals data of multiple products to the PC, copy the data into the same folder.

- 1) Insert the CD-ROM into the CD-ROM drive.
- 2) If any online manuals of the other products or the online manual of an old edition have already installed, rename TOPPAGE.PDF (the file of overall top page) which exists in the pdf_j folder^{*1} into TOPPAGE-ORG.PDF.

**1 The PDF_J folder corresponds to the PDF_E folder in the English online manual.*

- 3) Select the PDF_J folder under the CD-ROM folder^{*1} contained in **[My computer]**, and copy the folder including online manuals to an arbitrary folder in the hard disk.

**1 The PDF_J folder corresponds to the PDF_E folder in the English online manual.*

 Important

Although the file overwrite message box will appear when copying the data into the same file or folder, just ignore it and overwrite the data.

- 4) If the last update of the newly-copied TOPPAGE.PDF is older than that of the TOPPAGE-ORG.PDF renamed in 2), remove the TOPPAGE.PDF and rename the TOPPAGE-ORG.PDF into TOPPAGE.PDF again.

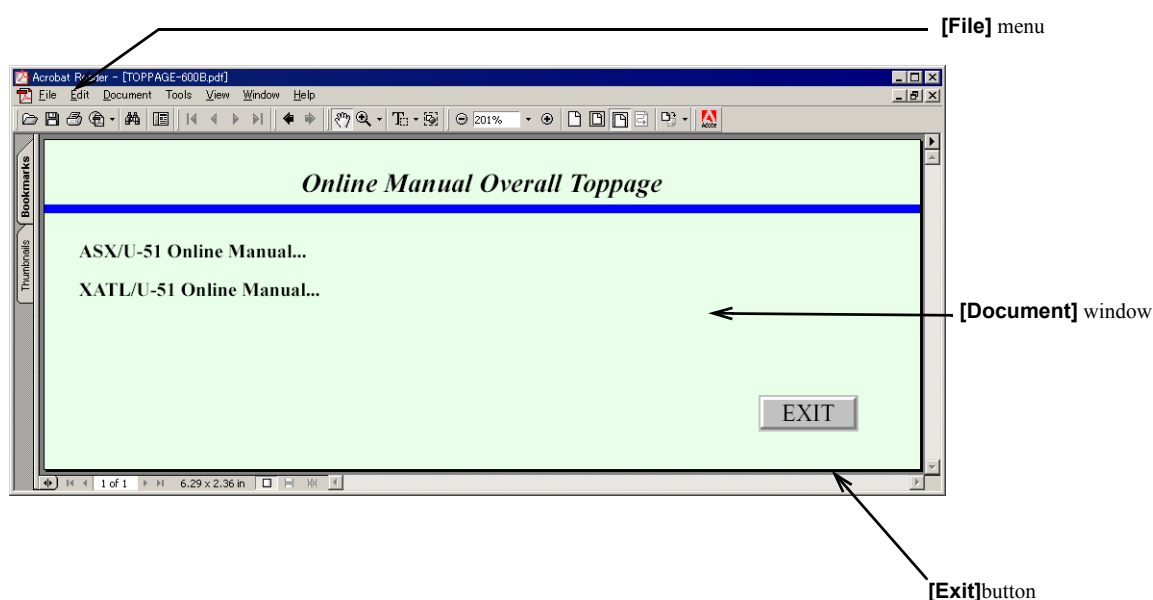

3. Starting the Online Manual

This chapter describes how to start and exit online manuals.

3. 1 Starting an Online Manual

When the online manual is started, the top page of the online manual shown in [Figure 3-1](#) appears.

Figure 3-1 Top Page of Online Manual

Tip

The contents of the top page depends on the installation condition of the optional software.

The online manual can be viewed on both a workstation and PC; however, the start method is different. Each of the start method is described below:

3. 1. 1 Starting an Online Manual on a Workstation

To start an online manual on a workstation, follow the following steps:

◆ Starting an Online Manual

To start an online manual on a workstation, execute the following command:

```
% acroread DirectoryPath/toppage.pdf.↓
```

*1 The directory name specified for *DirectoryPath* differs as described below:

Software manual

For the Japanese version of online manual

```
DirectoryPath:/installed_directory/man/pdf_j
```

For the English version of online manual

```
DirectoryPath:/installed_directory/man/pdf_e
```

Hardware manual

For the Japanese version of online manual

```
DirectoryPath:/installed_directory/man/pdf_j/product_name
```

For the English version of online manual

```
DirectoryPath:/installed_directory/man/pdf_e/product_name
```

*2 The directory name specified for *installed_directory* is an installation directory defined in [2. 1. 2 "Installing PDF Files" on page 2-3](#).

*3 *product_name* changes in name depending on the products.

➔ *For details, consult the README file on each respective tester's installation CD-ROM. The README files to be referred to change according to the language as described below:*

For the Japanese version of online manual

```
readme_j_euc.txt (EUC)
```

```
readme_j_sjis.txt(SJIS)
```

For the English version of online manual

```
readme_e.txt
```

When the command is executed, the top page of the online manual appears.

Tip

When starting the online manual, warning message will be displayed on the console according to the settings of the LANG environment variable though, there is no problem to refer to the on-line manual.

◆ Selecting a Document to be Viewed

To select a manual, click the manual name on the first page of online manual.

Limitation

Online manuals of optional products are included in the product media of each product. Therefore, they cannot be referenced unless each product is installed.

3. 1. 2 Starting an Online Manual on PC

To start an online manual on a PC, do the following:

◆ Starting an Online Manual

To start an online manual on a PC, double-click `toppage.pdf` in the installation directory of the online manual.

The installation directory is as described below:

Software manual

For the Japanese version of online manual

`PDF_J/toppage.pdf`

For the English version of online manual

`PDF_E/toppage.pdf`

Hardware manual

For the Japanese version of online manual

`PDF_J/product_name/toppage.pdf`

For the English version of online manual

`PDF_E/product_name/toppage.pdf`

**1 product_name changes in name depending on the products.*

➔ For details, consult the README file on each respective tester's installation CD-ROM.
The README files to be referred to change according to the language as described below:

For the Japanese version of online manual

`readme_j_euc.txt` (EUC)

`readme_j_sjis.txt` (SJIS)

For the English version of online manual

`readme_e.txt`

Acrobat Reader is started and the top page of online manual is displayed.

◆ Selecting a Document to be Viewed

To select a manual, click the manual name on the first page of online manual.

Limitation

Online manuals of optional products are included in the product media of each product. Therefore, they cannot be referenced unless each product is installed.

3. 2 Exiting the Online Manual

To exit the online manual, do the following:

The operation of exiting the online manual is the same for UNIX and PC.

◆ Exiting the Online Manual from the Top Page

Click the **[Exit]** button on the top page of online manual.

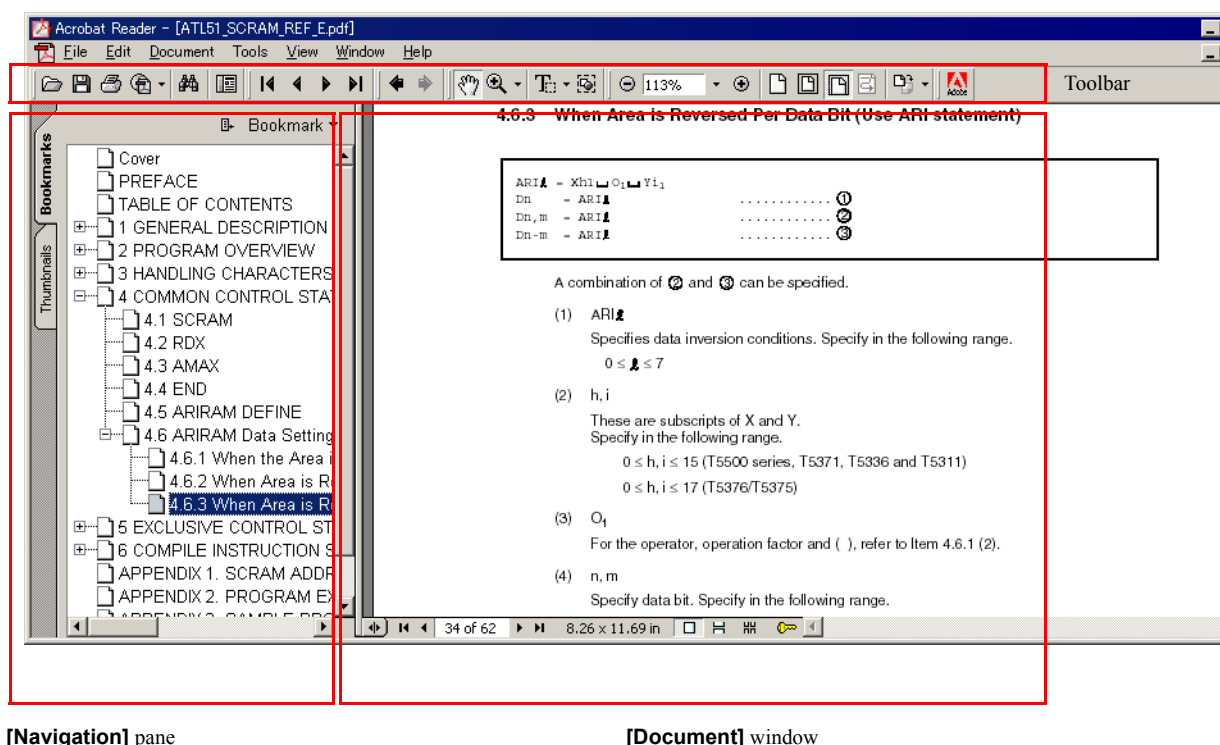

◆ Exiting the Online Manual When It is Being Displayed

Select **[File]→[Exit]** on Acrobat Reader.

3. 3 Acrobat Reader Window Elements

This section explains the Acrobat Reader window elements.

Figure 3-2 Acrobat Reader Window

Toolbar

Consists of the buttons of the tools for viewing and editing the document.

[Navigation] pane

Displays bookmarks.

Clicking the **[Bookmarks]** tag switches between the displaying and hiding of the navigation pane.

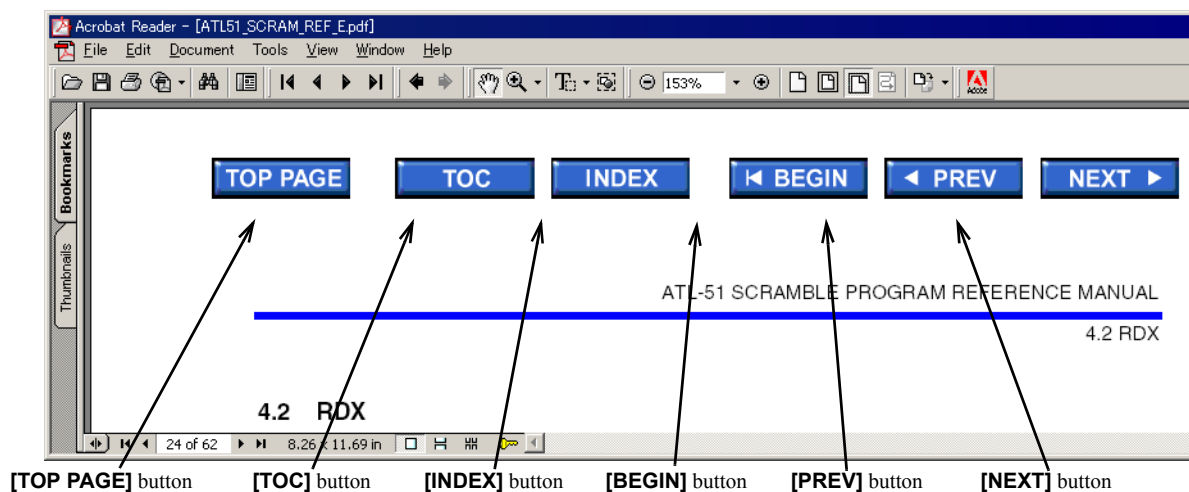

[Document] window

Displays PDF documents.

3. 4 Buttons in Online Manual

This section explains the names and features of the buttons shown in online manuals.

Figure 3-3 Buttons in Online Manual

[TOP PAGE] button

Displays the top page of online manual.

[TOC] button

Displays the table of contents for the document currently showing.

[INDEX] button

Displays the index for the document currently showing.

[BEGIN] button

Displays the beginning of the chapter of document currently showing.

[PREV] button

Goes to the next page.

[NEXT] button

Goes to the previous page.

Tip

There are some manuals without buttons on.

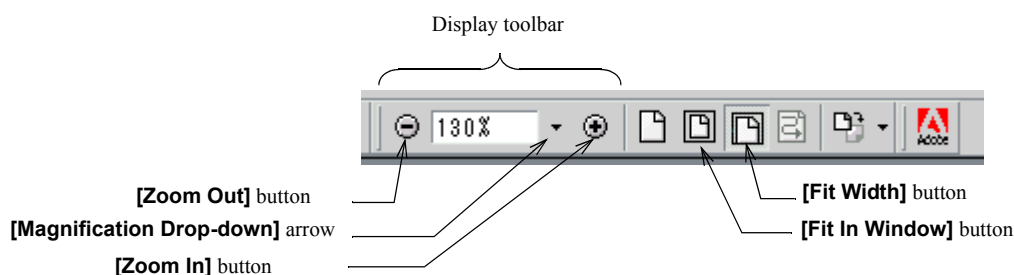

4. Adjusting the View of Online Manual

You can change the magnification level of a document and set a page layout that determines whether you will see one page or consecutive multiple pages at a time.

4. 1 Changing the Magnification Level

To change the magnification level, do the following:

Figure 4-1 Buttons in Toolbar for Changing the Magnification Level

◆ Magnifying the Page View

Do one of the following:

- Click **[Zoom In]** button in the viewing toolbar.
- Select the magnification level by clicking the **[Magnification Drop-down]** arrow in the viewing toolbar.

◆ Reducing the Page View

Do one of the following:

- Click **[Zoom Out]** button in the viewing toolbar.
- Select the magnification level by clicking the **[Magnification Drop-down]** arrow in the viewing toolbar.

◆ Resizing a Page to Fit the Window

Do one of the following:

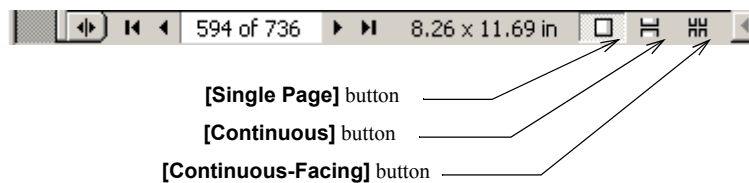

- To resize the page to fit entirely in the window, click **[Fit In Window]** button.
- To resize the page to fit the width of the window, click **[Fit Width]** button.

4. 2 Setting the Page Layout

Three page layouts are available for viewing an online manual.

To set the page layout, follow the following steps:

Figure 4-2 Buttons in Toolbar for Setting the Page Layout

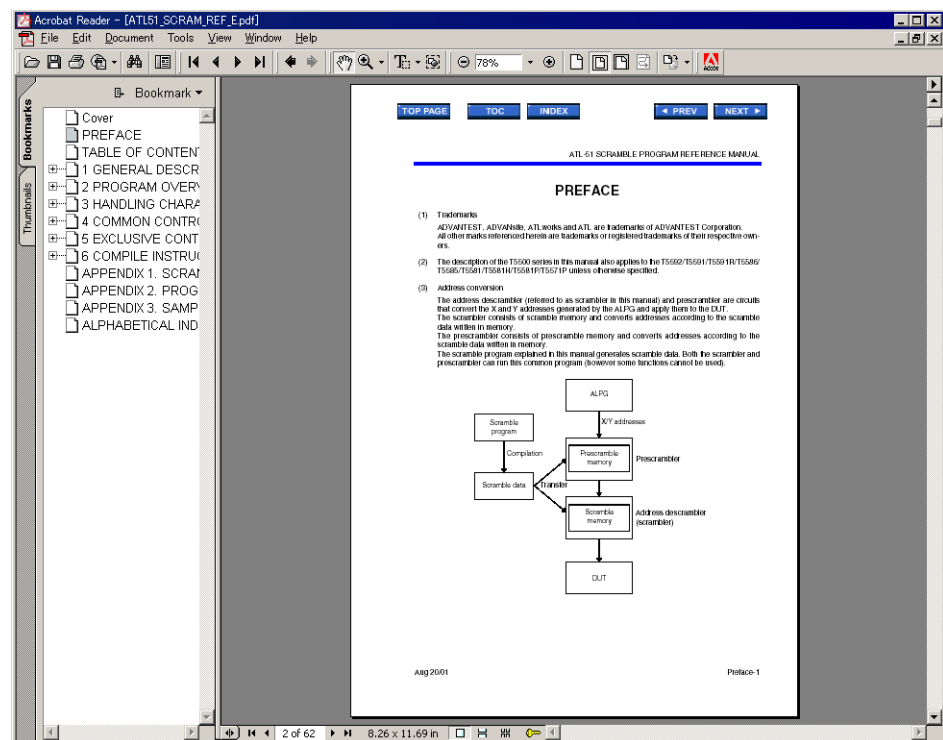

◆ Single Page Layout (default)

Displays one page in the document pane at a time.

To set the single page layout, click **[Single Page]** button in the toolbar.

Figure 4-3 Single Page Layout

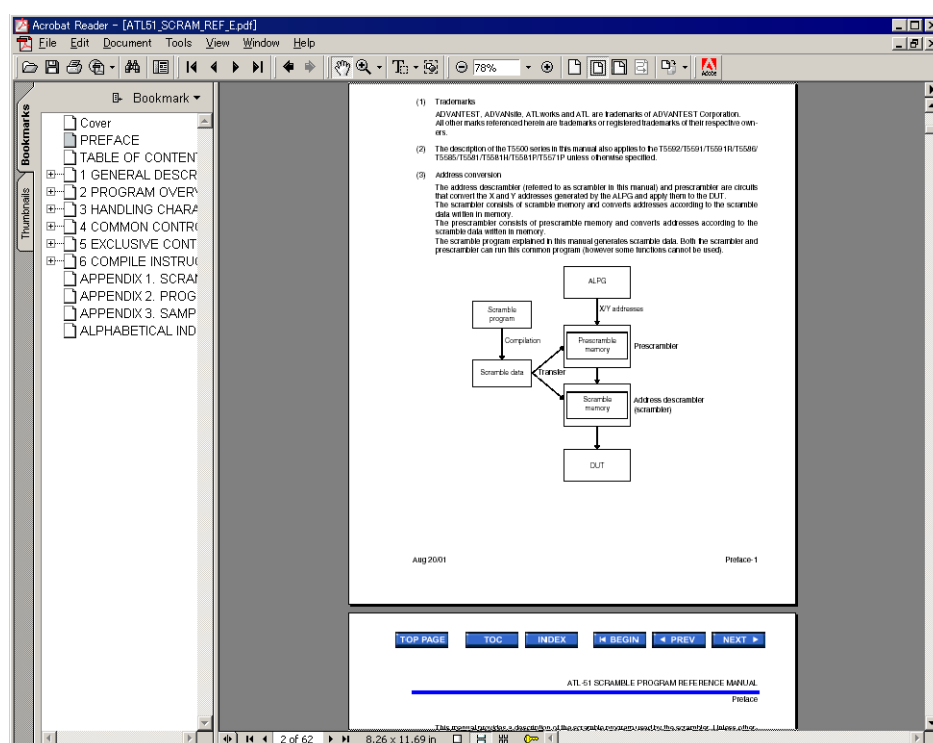

◆ Continuous Layout

Arranges the pages in a continuous vertical column.

To set the continuous page layout, click **[Continuous]** button in the toolbar.

Figure 4-4 Continuous Layout

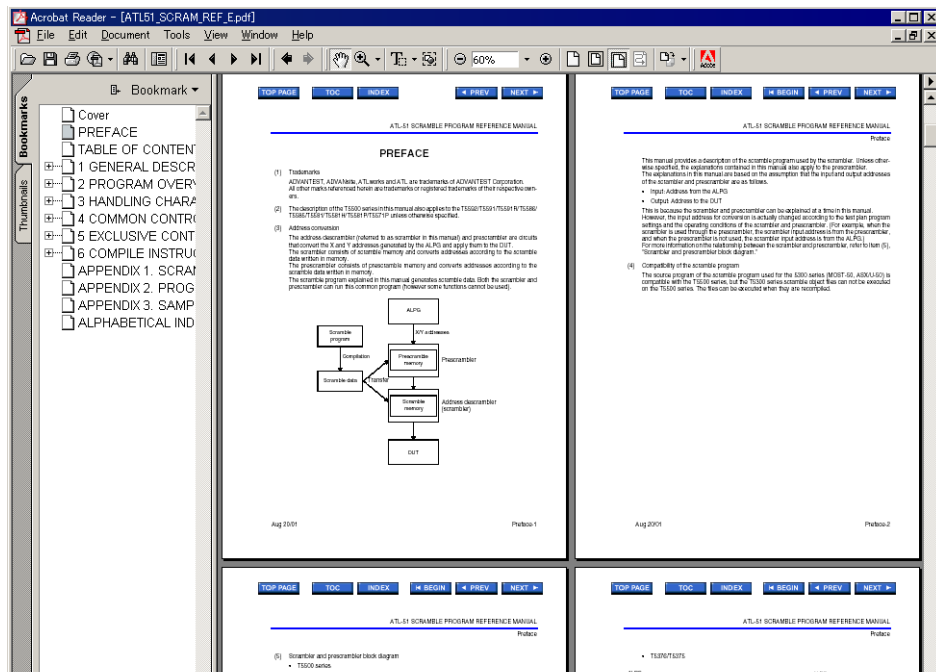

◆ Continuous-Facing Layout

Arranges the pages side by side. This configuration accommodates a two-page spread display and multiple-page viewing in the window.

To set the "Continuous-Facing" layout, click **[Continuous-Facing]** button in the toolbar.

4. 2 Setting the Page Layout

Figure 4-5 Continuous-Facing Layout

Tip

To see two-page spreads most efficiently, click [Fit Width] button.

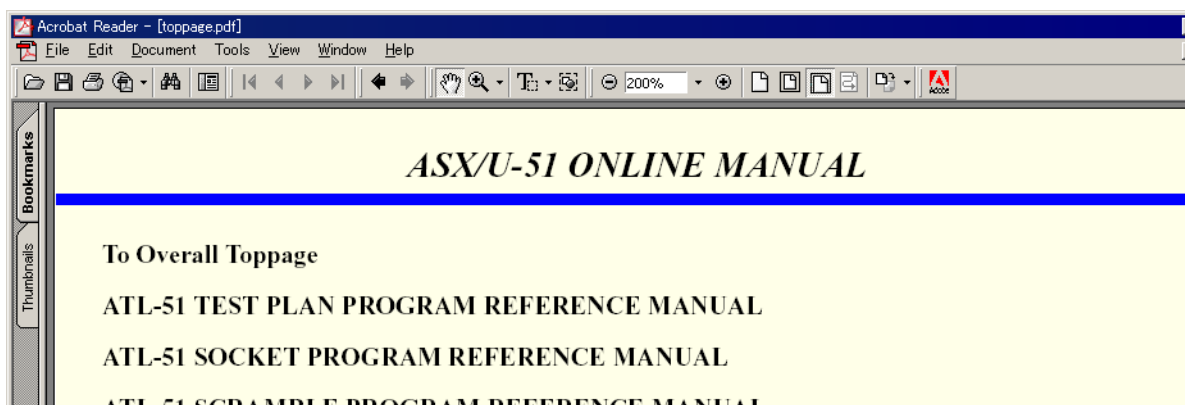

5. Viewing Online Manuals

You can navigate in a document by paging through it or by using the table of contents and the index. You can also retrace your steps through a document to return to where you started.

5. 1 Selecting a Document to be Viewed

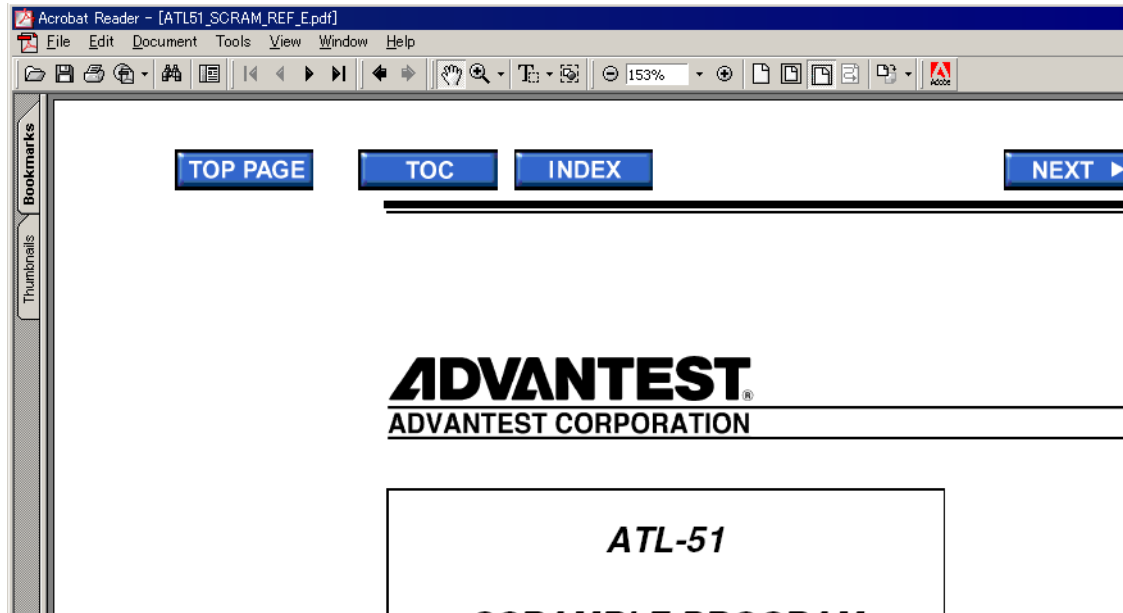

To select a document to be viewed, select the document by clicking the document name on the top page of online manual.

Figure 5-1 Top Page of Online Manual

The selected document appears in the **[document]** window of Acrobat Reader. At this time, the first page (front cover) of the selected document is displayed.

Figure 5-2 First Page of Document

Tip

When a document is opened by selecting it on the top page of online manual, the bookmarks do not appear. To display the bookmarks in this case, click the **[Bookmarks]** tag, or select **[Window]→[Bookmarks]**.

◆ Opening Multiple Documents at a Time

Selecting documents from the list on the top page of online manual opens only one document in Acrobat Reader. To open multiple documents at a time, do one of the following:

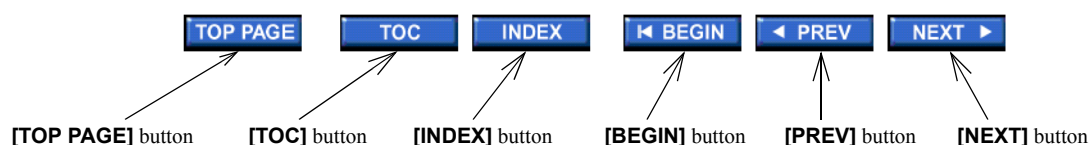

- Click **[Open]** button, or select **[File]→[Open...]**. When the **[Open]** dialog box appears, select one or more files (of the document(s) to be opened) and click **[Open]**.
- Double-click PDF file icons.

When multiple files of documents are opened, the document to be viewed can be changed by clicking a document name listed in the **[Window]** menu.

5. 2 Navigating Using Buttons

You can navigate through a document using the buttons included in Acrobat Reader or documents.

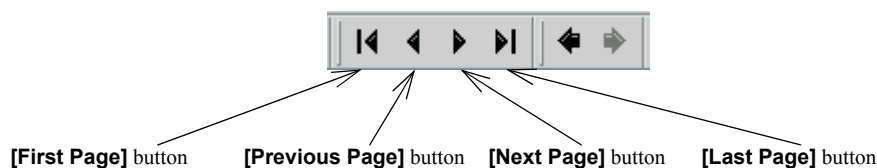

Figure 5-3 Buttons in Documents for Navigating

Tip

There are some manuals without buttons on.

Figure 5-4 Buttons in Navigation Toolbar for Navigating

◆ Going to the Next Page

To go to the next page, do one of the following:

- Click **[NEXT]** button in the document.
- Click **[Next Page]** button in the navigation toolbar.

◆ Going to the Previous Page

To go to the previous page, do one of the following:

- Click **[PREV]** button in the document.
- Click **[Previous Page]** button in the navigation toolbar.

◆ Going to the First Page

To go to the first page of the document currently showing, click **[First Page]** button in the navigation toolbar.

◆ Going to the Last Page

To go to the last page of the document currently showing, click **[Last Page]** button in the navigation toolbar.

◆ Going to the First Page of Chapter

To go to the first page of the chapter currently showing, click **[BEGIN]** button in the document.

◆ Going to the Top Page of Online Manual

To go to the top page of online manual, click **[TOP PAGE]** button in the document.

◆ Going to the TOC Page

To go to the TOC page of the document currently showing, click **[TOC]** button in the document.

◆ Going to the Index Page

To go to the index page of the document currently showing, click **[INDEX]** button in the document.

5. 3 Navigating Using Bookmarks

Acrobat Reader offers bookmarks as one of the navigational structures. Bookmarks allows you to navigate through a document.

In an online manual, the table of contents of a document is displayed in the Bookmarks palette.

Limitation

Acrobat Reader for UNIX does not support the Japanese bookmarks. Therefore, to navigate through a document in it, use the buttons shown in each page, the table of contents and the index of the document.

To navigate through a document using bookmarks, do the following:

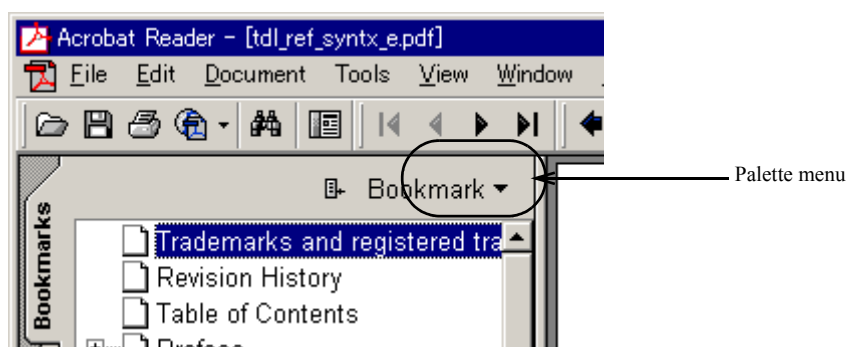

1. Show the Bookmarks palette. To show the Bookmarks palette, select **[Window]→[Show Bookmarks]**, or click the **[Bookmarks]** tag.
2. To jump to a topic using its bookmark, click the bookmark's icon or text in the palette.

Tip

If the [navigation] pane disappears when a bookmark is clicked, the [Hide After Use] command has been activated.

To remain open the [navigation] pane after a bookmark is clicked, deselect [Hide After Use] in the [navigation] pane's palette menu.

Figure 5-5 Palette Menu in [Navigation] Pane

◆ Showing or Hiding Bookmarks

The operation described in 1. toggles the Bookmarks on and off.

◆ Changing the Docked Bookmarks Palette to a Floating One

Usually, the Bookmarks palette is docked with the **[navigation]** pane of Acrobat Reader. This palette can be changed to a floating palette.

To change the docked Bookmarks palette to a floating one, drag the **[Bookmarks]** tag to the outside of the navigation pane and drop it.

5. 4 Navigating Using a Link

Clicking on the area where a link has been defined allows you to take to a predefined location. The link destination can be in the current document or in other documents.

In an online manual, the items in the table of contents and index are linked to the pages of the main body of documents.

◆ Using a Link Established in the Main Body

The text on the linked area is displayed in blue in an online manual. To navigate through a document using links, do the following:

1. Select a **[Hand Tool]**, a **[Zoom In Tool]**, or a **[Text Select Tool]**.
2. Position the pointer over the linked area on the page until the pointer changes to a hand with a pointing finger. Then click the link.

◆ Using the Table of Contents

1. Select a **[Hand Tool]**, a **[Zoom In Tool]**, or a **[Text Select Tool]**.
2. Click **[TOC]** button in the document.
3. Click the title of the item you want to view.

◆ Using the Index

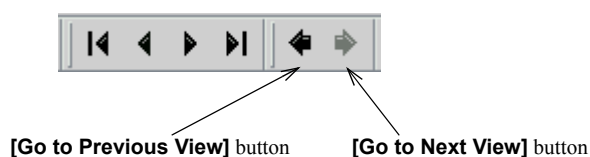

1. Select a **[Hand Tool]**, a **[Zoom In Tool]**, or a **[Text Select Tool]**.
2. Click **[INDEX]** button in the document.
3. Click the page number of the item you want to view.

5. 5 Retracing Your Viewing Path

After you have paged through documents or used navigational structures to move through documents, you can retrace your path back to where you started.

To retrace your viewing path, do the following:

Figure 5-6 Buttons in Navigation Toolbar

◆ Retracing in a Document

To retrace your viewing path in a document currently showing, click **[Go to Previous Page]** button in the navigation toolbar. Your viewing path is retraced for each step.

 Tip

To retrace your viewing path after using [Go to Previous View] button, click [Go to Next View] button.

◆ Retracing in Other Documents

To retrace your viewing path through other documents, click **[Go to Previous View]** button while holding down [Shift] key.

This command opens the other documents if the documents are closed.

6. Other Functions Frequently Used

This chapter explains the functions frequently used in online manuals.

6. 1 Finding Words in Online Manuals

You can find a word in a document currently showing by using the **[Find]** command in Acrobat Reader.

Figure 6-1 [Find] Button in Toolbar

◆ Finding a Word

To find a word, follow the following steps:

1. Click **[Find]** button, or select **[Edit]→[Find...]**.
2. Enter the text to find in the **[Find]** dialog box.
3. Select search options if necessary.
4. Click **[Find]** button.

◆ To Find the Next Occurrence of the Word

To find the next occurrence of the word, do one of the following:

- Select **[Edit]→[Find Again]**.
- Reopen the **[Find]** dialog box, and click **[Find Again]** button.

At this time, the word must already be in the Find text box.

Limitation

Acrobat Reader for UNIX does not support the function for finding Japanese words.

6. 2 Copying Text

You can select text in a document currently showing, copy it to the clipboard and paste it into a document in another application.

Figure 6-2 Buttons in Toolbar for Selecting Area to Copy

[Text Selection Tool] button

To select a text and copy it to the clipboard, follow the following steps:

1. Select **[Text Selection Tool]** and do one of the following:
 - To select a line of text, select the first letter of the sentence or phrase and drag to the last letter.
 - To select the area to copy, while holding down [Ctrl] key, drag across the area you want.
2. Select **[Edit]→[Copy]** to copy the selected text to the clipboard.
3. To show the selected text, select **[Window]→[Show Clipboard]**. Then, the selected text appears in the Clipboard Viewer.

Tip

The copy function allows a program example to be copied.

6. 3 Printing Online Manuals

You can print the entire online manual, or the specified range of pages or a particular page area.

Figure 6-3 [Print] Button in the Toolbar

◆ Printing an Online Manual

Click **[Print]** button, specify the printer, page range, number of copies and other options into the **[Print]** dialog box, and then click **[OK]** button.

◆ Printing a Specified Area on a Page

1. To specify an area on a page to print, select the **[Graphic Select Tool]** and drag on the page to draw the area you want.
2. Click **[Print]** button, specify the printer, page range, number of copies and other options into the **[Print]** dialog box, and then click **[OK]** button.

List of Figures
